Chap 15 Quiz - Issues in Water Quality

Georgia now manages water quality using a *watershed* perspective.

Does this mean:

1. (True / False) Point sources are permitted without consideration of other dischargers.
2. (True / False) Point sources increase nonpoint sources of pollution
3. (True / False) All nonpoint sources must now be permitted
4. Best Management Practices (BMPs) are now required for:
 - (a) (True / False) forestry
 - (b) (True / False) agriculture
 - (c) (True / False) construction
 - (d) (True / False) homes and businesses
